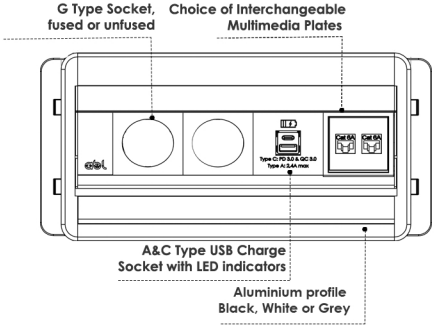
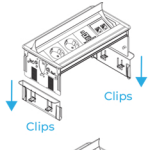
Thank you for purchasing ABL's Flip-S power module. Flip-S has been manufactured and tested in accordance with relevant standards (see contact page).



**INSTALLATION:**

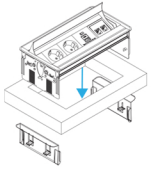
Note: Before making a cut-out, please contact your supplier to provide you with a technical drawing with the required table cut-out dimensions. Ensure that there is a sufficient clearance, 150mm below surface and 30mm between the cut-out edge of the work surface

**Step 1.**
Lift the clips and slide the side fixings down.



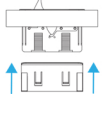
**Step 2.**

Place the module into the table cut-out.



**Step 3.**

Pull the sliding fixings back up until the module is tightened to the table.



**MAIN FEATURES:**

- The Aluminium lid and modular parts are available in Black, White and Grey
- Completely configurable, available in variations of sockets, USB charge sockets, and media connections
- Rated voltage of Flip-S power module unit is 250V AC **(C, E, F, G, J, L)**, for **B type sockets** 120V AC
